

We are a Bulgarian company formed in June 2011 working in the Healthcare IT services sector. We provide Integration Support and Mobile Application Development to healthcare providers within Bulgaria, and to Healthcare providers in other countries; including the UK, where we provide support for the NHS.

At 4:30PM we all have a high level of IT technical expertise, excellent communications skills and are all fluent English speakers.

Our team

Tsvetan - General Manager

I'm Tsvetan and I'm the General Manager here at 4:30PM. I live in Sofia, the Bulgarian capital.

I see this role as a great challenge and a real opportunity for my personal and professional development.

I enjoy helping others, talking to people on a variety of topics and I like to learn new things.

In my spare time I watch and play football. I play for a local football team which is competing in 4th division and in 2011 we took the title and became league champions.

My other hobbies include horse riding and spending time with my friends.

Nikola - Software Developer

Hi I'm Nikola, I'm from Sofia, Bulgaria and I'm working for 4:30PM as a software developer. I am in my final year as a student from the Technical University of Sofia where I am studying Computer System and Technologies.

I am really please to be working for 4:30PM because it gives me the opportunity to learn more, and develop my career in a way that will benefit both the company and its clients.

Well, something about me as a person. I spend most of my free time with my friends or at the gym. I like football and nice cars, like most man I guess.
